R-1 EXTRA PRESSURE WASH

This product is a quality granular compound that dissolves easily in water. It is a very alkaline, biodegradable product intended for washing and degreasing of industrial equipment, engines, trucks and farm equipment. This product is ideal for use with pressure wash equipment. It contains active detergents, water conditioners, emulsifiers, alkaline builders and rinsing agents for effective removal of dirt, oil and stubborn road film.

DIRECTIONS: For cleaning and light degreasing of vehicle surfaces with pressure wash equipment, use 1-3 grams per litre of water (1/3 – 1/2 oz/gallon). Best results are obtained by using hot water. Wet the entire surface to be cleaned with wash solution. Clean each section thoroughly. Rinse with cold water and allow to drain dry.

For heavy cleaning and degreasing of equipment, engines etc., use 12 -18 grams per litre of warm water (2 - 3 oz/gal). Best results are obtained by using hot water. Rinse with warm water and allow to drain dry.

NOTE: This is a caustic product. Avoid contact with chrome and aluminum.
