TECHNICAL DATA SHEET

INDUSTRIAL WASH & WAX

DESCRIPTION: This product is a one-step detergent formulated for cleaning and degreasing industrial vehicles, while leaving a shiny, protective wax finish. This high-foaming, alkaline detergent contains biodegradable surfactants and solvents for removing grease, oil and road film. The waxy finish left behind restores lustre to the paint and repels both water and dirt, keeping the vehicle cleaner longer.

DIRECTIONS:

Use a pressure washer with the required dilution for best results:

For regular maintenance cleaning: dilute up to 150 parts with water.

For heavy duty cleaning and maximum wax protection: dilute up to 50 parts with water.

Rinse thoroughly with water.

CAUTION: Allow appropriate dwell time for penetration, but do not allow product to dry on surfaces.
