GREEN TAR ELIMINATOR

This product is a biodegradable low foaming pressure wash detergent that rapidly penetrates tar, grease and oil. It is formulated with biodiesel and terpene solvents from sustainable vegetable feedstocks. GREEN TAR ELIMINATOR is ideally suited for heavy industrial applications where petroleum based hydrocarbon solvents are normally required. It is designed with workers' safety and environmental stewardship in mind.

DIRECTIONS: Use GREEN TAR ELIMINATOR at full strength. Remove any excess soil before applying product. Spray equipment liberally and evenly. Allow 5-10 minutes contact time for best results. Light scrubbing may be required on heavily soiled areas. Rinse with hot water.

CAUTION: GREEN TAR ELIMINATOR has excellent solvency. Avoid excessive contact time on plastics, soft rubbers and painted surfaces. Always spot test to ensure compatibility.
