

F350

LIQUID C.I.P. CLEANER PLUS

This product is a highly concentrated alkaline cleaner with chlorine that is specially formulated for "in place" cleaning of milk equipment. It contains water conditioners and soil suspending agents to prevent soil re-deposition on lines or equipment.

DIRECTIONS:

Pipeline Cleaning:

CONCENTRATION	WATER HARDNESS
20 ml to 10 L (1 oz to 4 gallons US)	0 to 14 grains
30 ml to 10 L (1 oz to 3 gallons US)	15 to 19 grains
40 ml to 10 L (1½ oz to 3 gallons US)	20 to 35 grains

Ideal wash temperature is 71-77°C (160-170°F)

Bulk Tank Cleaning:

Use 30-40 ml to 10 L (1½ oz per 2-3 gallons US) of 71-77°C (160-170°F) water.
