

G502

MARINE CLEAN

This product is designed to remove scale and water lines on fiberglass and aluminum boats. It contains a blend of biodegradable acids, solvents and surfactants to restore the original finish of boats that have been sitting in water for prolonged periods of time.

DIRECTIONS: This products can be used undiluted. For mild build-up, dilute 1:10 with water.

CAUTION: Do not allow this product to dry on the surface of the boat.
