SOAP SCUM REMOVER

This product is a multipurpose cleaner ideally suited for removing soap residue from bathtubs, showers and sinks. This is a safe to use non-acid mildly alkaline product based on a blend of natural and synthetic cleaning ingredients. It is compounded with extra chelating and sequestering power providing effective cleaning and softening characteristics.

DIRECTIONS: When used for removing soap scum, wet the surface to be cleaned with water and use product undiluted. Apply with sponge or cloth and rinse with water. When used as an all-purpose cleaner or scrub detergent, use 3-4 oz per gallon of water.
