

J406

TECHNICAL DATA SHEET

**DPC
H.D. MACHINE DISHWASH**

This product is a phosphate-free extra heavy duty granular chlorinated dishwashing product designed to provide excellent cleaning in tough commercial or institutional applications. This product is ideally suited for use in high volume dishwashing operations.

It contains caustic and other alkaline builders, extra water conditioners, active cleaners and wetting agents.

DIRECTIONS: Use 1 - 2 grams of detergent per litre of water (1/4 – 1/3 oz per gallon).

CAUTION: This material contains caustic soda and will damage aluminum pots and pans. Keep container closed when not in use.

COMMERCIAL USE ONLY
