

J411

TECHNICAL DATA SHEET

POT & PAN POWDER

This product is a quick-dissolving multi-purpose granular detergent designed to clean most washable surfaces without harmful effects on hands.

This product is phosphate-free unscented and contains foaming and water softening agents.

DIRECTIONS:

For pots and pans, use approximately 15 grams per 4 litres of water (1/2 oz per gallon).

For cleaning floors, walls and ceilings, use 30 grams per 4 litres of water (1 oz per gallon).

This product may also be used in top loading domestic washing machines at 1/2 cup per load. It is not recommended for use in high efficiency washing machines.
