

J418

YELLOW PINE FLOOR CLEANER

This product is a granular alkaline cleaner specially formulated for removing oils, greases, and other stubborn stains and soil from concrete floors.

It is a non-phosphate detergent containing silicates, wetting agents, grease-cutters, emulsifiers and pine oil.

DIRECTIONS:

Flush floor with hot water. Then brush or mop using a solution of 1:100 to 1:150 parts of water. Mop dry.

For concrete floors: wet floor and sprinkle floor cleaner at the rate of 1/2 - 1 kg per 10 square meters (1-2 lbs per 100 square feet). Brush vigorously and rinse with plenty of hot water.
