TECHNICAL DATA SHEET

K-10 LF OSTRO-DINE

This product is a low foaming cleaner-sanitizer with effective rinsing agents, ideally suited for use in bar glass washers for sanitizing and rinsing glasses.

ACTIVE INGREDIENTS:

9% iodine complex of block co-polymers of ethylene and propylene oxides (providing 0.9% w/v available iodine)

4.4% lactic acid

DIRECTIONS: For sanitizing bar glasses, use 12 ppm solution in the final rinse cycle of machine.

For cleaning and sanitizing of utensils and equipment: pre-flush with warm water, then wash with 25 ppm solution using warm water. Rinse with potable water. Prior to using equipment, sanitize with 12 ppm solution.

TABLE OF DILUTION:

12 ppm = 1.35 ml/L of water (1 oz/4 gal)

25 ppm = 2.7 ml/L of water (2 oz/4 gal)

100 ppm = 10.8 ml/L of water (2 oz/gal)

CAUTION: Never dilute with hot water.
