ARENA FINISH

This is a black non-powdering salt-resistant self-polishing finish designed for use on dressing room floors and hallways. It will protect and add gloss to skate-resistant flooring materials such as belting and rubber matting. It dries to a high gloss in approximately 30 minutes.

DIRECTIONS: Use only clean equipment (applicator, mops and pails), in applying the finish. Apply a thin, even coat. Do not rub. Another thin coat is recommended for added gloss and protection. One litre covers 60-65 square meters. Allow 20 minutes for drying before applying a second coat.
