

J800

POWDERED CARPET CLEANER

This is a highly effective product formulated to provide efficient and fast soil removal. It can be used safely in all extraction machines.

It contains excellent detergents and emulsifiers for both water and oil soluble soils and stains. It also contains optical brighteners for increased color brightness. The product is non-foaming and dissolves easily in water.

DIRECTIONS: Use a 0.5 to 1% solution (3/4 oz/gallon or 4 g/L). This product should be used with hot water for best results. Mix 2 lb. of product in 5 gallons of hot water for truck mount concentrate. Increase solution strength for difficult cleaning applications. Test small section of material to be cleaned for color fastness.
