

J802

CARPET EXTRACTION POWDER PLUS

This is a concentrated extraction detergent that will cut through tough greasy soils and ensure clean carpets. It is strong enough for commercial applications and still safe on residential carpets. This powder provides excellent cleaning characteristics with a minimum of residue. It is very soluble, low foaming and contains water conditioners and corrosion inhibitors.

DIRECTIONS: Truck Mount Extractors: dilute 1 1/2 lbs. of extraction powder to 5 gallons (30 g/L) of warm water. Feed this concentrate at a rate of 2 gallons per hour for stain resistant carpets and 3 gallons per hour for commercial and non stain resistant carpets. Portable Extractors: mix 1/2 to 3/4 oz/5 gallons (12-20 g/20 L) of hot water for stain resistant carpets. Mix 1 to 1 1/2 oz/5 gallons (30-45 g/20 L) of hot water for commercial and non stain resistant carpets.

COMMERCIAL USE ONLY
