TECHNICAL DATA SHEET

CARPET NEUTRALIZER

Carpet Neutralizer is a mild acid solution used as a final rinse after wet-cleaning carpets. It will neutralize the alkaline cleaners as well as stabilize the dyes and assist in preventing browning. It is safe for use on synthetic and natural fibres.

DIRECTIONS:

Truck Mount Units: Use at 3-4 oz/gallon (15-25 ml/L of water.

Portable Units: Use at 1-2 oz/gallon (7-15 ml/L) of water.

Upholstery Treatment: Use at 1-2 oz/gallon (7-15 ml/L) of water and spray on with a trigger sprayer. Extract or sponge after using neutralizer.

NOTE: Do not mix with cleaning solutions. Use as a rinse only. Test carpet for colour fastness before using.
