

L532

TECHNICAL DATA SHEET

MULTI-PURPOSE PRESPOTTER

This product is a highly concentrated multi-purpose prespotter formulated for use on fabric stains in commercial laundry, dry-cleaning and hospitality cleaning applications.

This product contains a special blend of water-soluble solvents, surfactants and emulsifiers, deodorized petroleum distillates and protease. It is particularly effective for removal of oil and grease, cosmetics, ink and proteinaceous food stains.

DIRECTIONS: Spray directly on stained areas and rub vigorously. Allow 5 – 10 minutes to soak before laundering in warm/hot water. It may also be added with detergent directly to the wash cycle.
