TECHNICAL DATA SHEET

ALUMASOL 40 NON-TOXIC GLYCOL SOLUTION -40°C

This product is a light blue coloured propylene glycol based antifreeze and heat transfer fluid blended specifically for use in boiler systems with aluminum heat exchangers.

Alumasol 40 is inhibited and stabilized to a pH of 8.0. It has a strong buffering capacity and is of exceptionally low toxicity.

This pre-mixed solution provides freezing protection to -40°C.
