LIQUID TRIPE WHITENER

This product is a moderately alkaline liquid bleaching agent formulated for whitening beef tripe. When used in conjunction with a tripe cleaner, extremely white, firm tripe is produced with minimal yield losses.

DIRECTIONS FOR 25-30 PIECES:

Flush tripe with warm, (140°F) water. Add tripe cleaner and 1.75 litres of Liquid Tripe Whitener. Wash for 3-5 minutes. Amounts used may vary depending on the size of pieces and their condition, as well as the type of washing machine.
