TECHNICAL DATA SHEET

LDC-1200 SOFTENER CONCENTRATE

This product is a high quality cationic liquid concentrate designed to soften and eliminate static cling from all fabrics. The use of this product will shorten extraction time, increase flat work production, reduce tumbling and drying time and produce less fabric wrinkling. It is completely soluble and readily dispersed in hot or cold water to give uniform coverage to the entire load.

DIRECTIONS: This product may be added manually or with automatic dispensing equipment to the last rinse cycle. When used in commercial applications, 15 ml (1/2 oz) per 50 lbs of laundry is recommended.

COMMERCIAL USE ONLY
