TECHNICAL DATA SHEET**LDC-1300
SOUR CONCENTRATE**

This product is a quality liquid neutralizing concentrate for use in commercial laundry applications. It is required when using highly alkaline detergents or laundry alkali, and will ensure that no harsh chemical residue remains in the linen. It will also contribute to the elimination of natural alkalinity in the rinse water and in the prevention of skin irritation. This product contains rust preventing properties which reduce the yellowing of linen in areas using water with high iron content.

DIRECTIONS: Use 15 ml (1/2 oz) per 50 lb of linen. Adjust amount to achieve a pH of 6 - 6.5 in the last rinse cycle.

COMMERCIAL USE ONLY
