TECHNICAL DATA SHEET

LDC-1450 OXYGEN BLEACH CONCENTRATE

This product is an effective liquid bleaching compound containing hydrogen peroxide.

It is an excellent alternative for bleaching operations where the use of chlorine bleach is undesirable, as in areas with high iron content.

DIRECTIONS: When used in commercial washing equipment 30-90 ml (1-3 oz) of product per 50 lbs of laundry is recommended.

NOTE: When washing coloured fabrics, make sure to test dye for colour fastness.

COMMERCIAL USE ONLY
