PRO-SIL TIRE SHINE

This product is professional grade, 100% active silicone-based tire dressing that imparts a long lasting “wet look” shine to automotive tires. It is a semi-viscous clear liquid for easy handling.

DIRECTIONS: Best results are achieved when applied directly to a clean, dry tire. Apply indirectly with a dry towel or nylon brush, or directly by spraying onto the tire. Ensure an even application on the entire surface.

CAUTION: This product is incredibly slippery if spilled on the floor. Clean spillage immediately.
