TECHNICAL DATA SHEET

BLUE FOAMING WAX - CHERRY

This product is a highly concentrated, cherry scented foaming wax that produces a vibrant blue foam. It is formulated with carnauba wax and high foaming detergents to create a polished and glossy looking finish. The wax forms a water repellant barrier, effectively reducing hard water spotting and vehicle drying time. It is designed for touchless washes and is safe to use on paint, rubber, and chrome.

This product is phosphate free and completely biodegradable.

DIRECTIONS: Dilute wax approximately 1:450, depending on the amount of polish desired. Apply before the final rinse in the sequence.
