TECHNICAL DATA SHEET

HIGH pH FOAMING PRESOAK

This product is a highly concentrated, high foaming alkaline presoak for automated and self-serve car washes. It produces a rich foam that readily removes greasy soils and road salts, leaving a pleasant citrus aroma.

This product is equally effective in hard or soft water and is safe to use on all surfaces. It contains only biodegradable and phosphate free materials.

DIRECTIONS: Dilute product up to 1:450 with warm water.

Apply diluted product directly with a pressure washer or automated car wash equipment.
