TECHNICAL DATA SHEET

E-15 LIQUID MACHINE DISHWASH

This product is an effective and economical liquid dishwash detergent formulated for removal of heavy grease and soil. This product may be used with high temperature or low temperature dish machines. Its high concentration of sequestering agents allows it to be used in moderately hard water areas without buildup of mineral scale in the dish machine.

DIRECTIONS: Use 2-4ml/L (1/3 to 1/2 oz per gallon) of water or as required. Best results are obtained by dispensing the product with automated liquid dispensing systems.

NOTE: Contains a high concentration of caustic soda. Not recommended for use on aluminum cookware.
