**LIQUID MACHINE DISHWASH HW**

This product is an excellent liquid dishwash detergent designed for use in commercial operations preferably with a liquid dispensing system. It has a high concentration of sequestering agents and alkaline cleaners to make it well suited for use in hard water area. It will assure hygienically clean, film free dishes. It is ideal for use in high temperature machines, but can be used in low temperature machines as well.

**DIRECTIONS:** Use approximately 1/3 to 1/2 oz. per gallon of water or as required. Best and most economical results are obtained when used with a liquid dispensing system. Food contact surfaces should be rinsed clean with potable water.

**ACTIVE INGREDIENTS:** Sodium Hydroxide and NTA.

**PRECAUTION:** Contains caustic material. This product may damage aluminum pots and pans.

**COMMERCIAL USE ONLY**
