

G640

CONDITIONING FLOOR CLEANER

This product is a low foaming, mildly alkaline floor treatment designed to remove soil while restoring luster to the floor. This product leaves a streak-free shine and adds moisture back to flooring. It is safe to use on all washable surfaces. Conditioning Floor Cleaner is a safe-to-use and environmentally responsible product; it is readily biodegradable and it contains no solvents, perfumes or artificial coloring.

DIRECTIONS:

For light duty, routine cleaning: dilute 1:200 – 1:100 (5 mL/L – 10 mL/L) with cold water

For heavy duty soil removal: dilute 1:50 – 1:20 (20 mL/L – 50 mL/L) with cold water

It can be applied manually using a wet mop or with spray buffing machines.
