

G683

ECONO-DISHWASH

This is a non-foaming heavy duty chlorinated dishwashing product designed to provide excellent cleaning in tough commercial or institutional applications.

It has excellent stain removing properties, alkaline cleaners and water conditioners for effective removal of grease and soil leaving everything spotless and sparkling.

DIRECTIONS: This product is recommended to be used with automatic dispensing equipment at approximately 1/3 oz per gallon of water. Amounts that are needed will vary depending on soil and water hardness conditions.

NOTE: This is an alkaline product and not recommended for use on aluminum pots and pans.

COMMERCIAL USE ONLY
