ECONOMY CHLORINATED PRESOAK

This product is designed for use in restaurants, bars, hotels and institutions. It is very effective as a presoak of kitchen utensils and coffee cups, and is a great economical choice.

DIRECTIONS: Pre-rinse utensils and coffee cups with water before soaking. Add 9-18 mL per litre of water. After soaking, rinse utensils and coffee cups with water before loading into dishwasher.

For 100 ppm available chlorine, use 9 mL/L of water.

For 200 ppm available chlorine, use 18 mL/L of water.
