TECHNICAL DATA SHEET

LIQUID WAREWASH PRESOAK - CHLORINATED

This is a liquid product designed for use in restaurants, bars, hotels and institutions. It is very effective as a presoak for kitchen utensils and coffee cups.

DIRECTIONS: Pre-rinse utensils and coffee cups with water before soaking. Add 6 - 10 ml per litre of water. After soaking, rinse utensils and coffee cups with water before loading into dishwasher.

For 100 ppm available chlorine, use 6 ml/litre of water or 1 oz/gallon.

For 200 ppm available chlorine, use 12 ml/litre of water or 2 oz/gallon.
