## PLATINUM DISH SOAP

This super concentrated manual dish detergent is loaded with grease cutting power. It is 2X more concentrated than most dish detergents and only requires a few drops to fill the sink with stable suds.

It quickly penetrates and removes even the toughest baked-on grease. This semi-viscous detergent disperses rapidly, rinses freely and leaves dishes hygienically clean. It has a neutral pH and is soft on hands.

**DIRECTIONS:** Add a few drops of detergent directly into warm-hot water for best results. Replenish as necessary.

This product may be used with automatic dispensers.

**COMMERCIAL USE ONLY**
