SANI HANDS FOAM

This product is a foaming hand sanitizer ideal for use in high traffic areas where running water is not available, such as waiting rooms and portable toilets. It is formulated with 1000ppm active quaternary sanitizer to kill germs, while cosmetic grade detergents, emollients and Aloe Vera extract are gentle on hands. This hand sanitizer is dye, fragrance and preservative free. It produces dense luxurious foam when used in a foam-generating dispenser.

DIRECTIONS: Press foaming dispenser to release sanitizing foam into the palm of your hand. Rub hands together to work foam between fingers and cover entire hand until dry.
