RIG WASH B
NON PHOSPHATE
FULLY BIODEGRADABLE

This product is a high quality all-purpose granular washing compound containing water softeners, emulsifiers, active cleaners, wetting and foaming agents.

Rig Wash B can be used for many different washing purposes encountered in the oilfield. It is safe on clothing and painted surfaces.

The amount needed depends on the cleaning application and the amount of oil and dirt present.

For normal spray washing of equipment, cars, rigs, etc., use 1 ounce per gallon of water. For tougher cleaning jobs, increase the amount of Rig Wash B.
