

S776

**TECHNICAL DATA SHEET****H-40  
GLYCOL SOLUTION -40°C**

This product is an inhibited ethylene glycol antifreeze solution and heat transfer fluid of medium toxicity.

It is a clear colourless liquid with practically no odour. It is premixed with water to provide freezing protection down to -40°C.

This product is well suited for use as antifreeze in heating systems and is compatible with our boiler compounds recommended for such operations.
