## POWERFOAM FOAMING ALKALINE CLEANER DEGREASER

This product is a heavy-duty semi-viscous detergent designed for use in food plant areas and is ideally suited for application by a low-pressure foam sprayer or foam generator. It is formulated to cling to surfaces to allow prolonged contact time and improve cleaning results.

**DIRECTIONS:** For effective cleaning and degreasing, use 1 part to 80 parts of hot water and apply to surface with low-pressure sprayer or foam generator. For lighter degreasing jobs, dilute with more hot water

**NOTE:** Prolonged contact may harm painted surfaces.
